

The stakes just got higher: 3 Years of Fire Pump Warranty Coverage

A basic warranty isn't enough.
Armstrong Fluid Technology raises the
standard for protection, with all the added
benefits of Design Envelope Fire Pumps.

Raise the stakes with a 3-year total warranty
including parts and labor when you pair
Design Envelope Fire with a very low-cost
3-year Fire Pump Manager subscription at
purchase. Most manufacturers stop at one.

Stack the odds in your favor by cutting
the complexity and keeping the confidence
with Design Envelope Fire Pumps. Fewer
components, fewer hidden costs, and
easier compliance.

Deal yourself a compact footprint with
integrated variable speed control in a vertical
in-line design that fits tight mechanical
rooms without sacrificing performance.

Warranties are table stakes.
A 3-year total warranty backed
by connected asset management?
That's a winning hand.

Go all in with Armstrong.
